Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Conducting land and marine-related surveys for port construction and infrastructure projects. Utilizing advanced surveying equipment such as Total Station and GPS to ensure accurate measurements and data collection. Preparing detailed survey reports, maps, and as-built drawings using AutoCAD and Civil 3D with a high level of precision. Responsible for setting out project coordinates and verifying alignment with engineering designs and specifications. Supporting daily site operations by providing accurate survey data and coordinating with engineers, supervisors, and multidisciplinary teams to ensure smooth workflow and project progress. Experienced in working in challenging marine environments, including port construction projects, which require high attention to detail, safety awareness, and adherence to strict quality standards. Ensuring compliance with project specifications, safety regulations, and industry standards at all times. Contributing to problem-solving on site by identifying discrepancies and recommending corrective actions to maintain accuracy and efficiency. Committed to continuous improvement, maintaining equipment, and delivering reliable results within deadlines.

Osama has 12 years' experience in the field of coastal and maritime surveying, he has worked on multiple projects in Egypt and Saudi Arabia. His extensive experience includes being involved in projects involving Marine works, general & land surveying, topographic and Bathymetric surveying. • Major experience in marine Surveying • General and Land Surveying • Having good commands in Civil 3d and AutoCAD
