MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9716
Name	Ali Hassan
Date of Birth	2002-07-03
Salary (in USD)	3500/Per Month
Industry	Geosciences
Sub Industry	Geophysicist
Nationality	Pakistan
Primary Language	English,
Secondary Language	
Total Years of Experience	1

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I have a strong academic background in Applied Geology with specialization in Geophysics, which has helped me develop a solid understanding of geological and geophysical concepts. During my studies, I actively participated in various academic and field-based projects, where I gained experience in geological mapping, basic subsurface interpretation, and groundwater assessment. My final year research work further strengthened my analytical and problem-solving abilities. In terms of responsibilities, I have worked on collecting and analyzing geological data, preparing technical reports, and supporting group presentations. I also gained experience in using geological maps and understanding basic GIS applications for data interpretation. These experiences have improved my ability to work both independently and as part of a team. Regarding additional skills, I have basic knowledge of ArcGIS and a good understanding of seismic and geophysical interpretation concepts. I am also proficient in Microsoft Office tools, including Word, Excel, and PowerPoint, which I used regularly for academic reporting and presentations. I am highly motivated to develop my career in the oil and gas industry and continuously improve my technical skills. I am a quick learner, hard-working, and eager to contribute effectively in a professional environment.

I have completed several online and academic certifications that have strengthened my technical, analytical, and research skills in the field of Applied Geology and Geophysics. My key certification includes Basics of Well Log Interpretation, which provided me foundational knowledge of subsurface evaluation used in petroleum geology. I have also completed multiple research-focused courses such as How to Write and Publish a Scientific Paper, Research Proposal: Initiating Research, Understanding Research Methods, and Research Methodologies, which enhanced my academic writing and research planning skills. These courses helped me understand structured scientific investigation and data interpretation. In addition, I have developed soft and professional skills through certifications like Creative Thinking: Techniques and Tools for Success and Developing Interpersonal Skills, which improved my problem-solving ability, teamwork, and communication. I also completed Introduction to Computers and Office Productivity Software, which strengthened my proficiency in Microsoft Office tools for reporting and data presentation. Furthermore, I have knowledge of water resource management and sustainability through courses such as Engaging the Private Sector through Public-Private Partnerships (PPPs) for Water and Sanitation and The Role of Water in Socioeconomic Growth. I also studied Our Earth: Its Climate, History, and Processes, which expanded my understanding of Earth systems. These certifications collectively support my interest in pursuing a professional career in geology and the oil and gas industry.

Education Summary

Course	University	Passing Year	Country
BS Applied Geology	University of the Punjab Lahore	2026	Pakistan

Career Summary

Position	Employer	Country	From	To
Research Assistant	University of the Punjab Lahore	Pakistan	09/2026	12/2026
