Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Experienced Drilling Fluids Representative with a strong track record supporting onshore and offshore operations across Bolivia, Argentina, Venezuela, Colombia, and Angola. Specialized in the design, implementation, and optimization of drilling fluids and cementing programs to ensure safe, efficient, and cost-effective well delivery. Proven ability to maintain fluid properties within program specifications, including density, rheology, and chemical composition, while ensuring wellbore stability, pressure control, and effective hole cleaning. Skilled in real-time monitoring, troubleshooting, and applying corrective treatments to mitigate drilling challenges such as losses, contamination, and instability. Extensive experience coordinating resources and logistics for drilling fluids and cementing operations, ensuring timely material availability and operational continuity in complex environments. Strong focus on HSE compliance, environmental standards, and operational excellence. Recognized for effective communication with drilling teams, supervisors, and clients, providing technical recommendations and daily reporting to optimize performance and reduce non-productive time. ? Adaptable professional with international exposure, capable of working in multicultural teams and remote locations, delivering consistent results under demanding operational conditions.
