Sub Industry	WellSite Supervisor
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	9

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	----------------------------------------

Preventive Maintenance : Execute scheduled preventive maintenance programs for all mechanical equipment on the rig to ensure operational efficiency and minimize non-productive time. Troubleshooting & Repair: Diagnose and repair mechanical faults in heavy-duty diesel engines (Caterpillar, Cummins), mud pumps, drawworks, and air compressors. Hydraulic & Pneumatic Systems: Inspect, maintain, and overhaul complex hydraulic and pneumatic systems, including cylinders, valves, and high-pressure pumps. Rig Equipment Maintenance: Monitor and service top drives, rotary tables, and shale shakers to ensure they meet manufacturer and company standards. Inventory & Spare Parts: Manage the inventory of mechanical spare parts and specialized tools, ensuring all critical items are available for emergency repairs. HSE & Compliance: Strictly adhere to company and client (e.g., PDO/OXY) HSE policies, including Lock-Out Tag-Out (LOTO) procedures and Permit to Work (PTW) systems. Technical Reporting: Maintain accurate daily maintenance logs and prepare detailed reports for the Rig Manager regarding equipment status and repairs. Rig Move Support: Play a key role in rig-up and rig-down operations, ensuring all mechanical components are safely disassembled, transported, and reinstalled.

First Aid & Firefighting Basics
B.o.p control unit
Top driver Basic and advanced diesel engine
Hoisting equipment
Safety and sms management level
Mud pump Hydraulic circuit
H2s gas and confined space
