## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Dear Hiring Team, I hope you are doing well. I am writing to apply for the Data Engineer position at VyomaRise. I am an experienced Oilfield Data Engineer and Mud Logging professional with more than five years of hands-on experience in drilling and mud logging operations across the Middle East. Currently, I am working in Oman on an onshore drilling project, where I manage real-time drilling data acquisition, WITS/WITSML systems, sensors monitoring, reporting, and daily wellsite data analysis. I am highly familiar with mud logging units, rig instrumentation, troubleshooting, and delivering accurate operational reports to the client and drilling team. My background in Geology, combined with strong technical skills in data analysis, databases, and field operations, allows me to effectively support drilling performance and decision-making. I am comfortable working in fast-paced rig environments and collaborating with multicultural teams. I hold a valid Oman residency and I am available to relocate and join immediately. Please find my CV attached for your review. I would appreciate the opportunity to discuss how my experience can add value to your team. Thank you for your time and consideration.
