Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9762
Name	Abdelrahman Ibrahim
Date of Birth	1998-08-25
Salary (in USD)	200/Per Day
Industry	Oilfield Services
Sub Industry	
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	2

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Dynamic and Results-Oriented Mud Engineer & Operations Supervisor with a strong technical foundation in the Oil & Gas industry. With a proven track record of managing complex drilling fluid systems, I specialize in optimizing wellbore stability and enhancing operational efficiency through precise chemical engineering and rigorous field monitoring. My expertise lies in the end-to-end management of Oil-Based Mud (OBM) and Water-Based Mud (WBM) systems, ensuring they meet the specific geological challenges of each project. Throughout my career, I have excelled in performing advanced laboratory analysis and pilot testing to determine the most cost-effective and technically sound fluid formulations. My role extends beyond the lab; as a Supervisor, I am responsible for overseeing the daily operations of mud plants and rig-site activities, managing inventory logistics, and leading multi-disciplinary teams to achieve project milestones. I possess a deep understanding of Solids Control Equipment (SCE) and its critical role in maintaining fluid properties and reducing overall environmental impact. Safety and professional ethics are the pillars of my work philosophy. I am a staunch advocate for HSE (Health, Safety, and Environment) standards, consistently ensuring that all operations comply with international regulations and corporate safety protocols. I am adept at identifying potential risks and implementing proactive mitigation strategies to minimize Non-Productive Time (NPT). I am a proactive problem-solver with a commitment to continuous learning, currently enhancing my credentials through advanced technical certifications and professional development. My goal is to leverage my technical mastery and leadership skills to contribute to the success of high-stakes drilling operations while maintaining the highest standards of integrity and excellence.

Mud school, HPHT, OBM, WBM, IWCF level 1, OSHA, spell control and technical reporting

Education Summary

Course	University	Passing Year	Country
Diploma in analytics biochemistry	Benha university	2023	Egypt
Bachelor of Science	Al Azhar university	2021	Egypt

Career Summary

Position	Employer	Country	From	To
Mud engineer	Halliburton	Egypt	05/2025	04/2026
Chemist	Halliburton	Egypt	04/2024	04/2025
