

FALCON®
MULTI SERVICES LTD

Falcon Multi Services Ltd
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9769
Name	Ahmed Mostafa
Date of Birth	1997-02-13
Salary (in USD)	140/Per Day
Industry	Oilfield Services
Sub Industry	MWD / LWD
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English, Spanish ,
Total Years of Experience	8

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Monitor and record all static and dynamic drilling operations, including reaming, cementing, pipe running, and logging activities, ensuring accurate real-time data capture. Track gas levels, mud properties, and lag time continuously, identifying and reporting any anomalies promptly to maintain operational safety and efficiency. Identify potential drilling hazards such as kicks, losses, stuck pipe, and abnormal pressure, taking proactive steps to minimize risks and prevent incidents. Ensure consistency between actual and theoretical mud returns by analyzing drilling parameters and surface data, supporting accurate well monitoring. Collect and analyze gas samples as required, verifying lag time corrections to maintain data reliability and improve formation evaluation accuracy. Prepare and submit comprehensive daily and weekly operational reports, clearly documenting drilling progress, events, and technical observations. Collaborate closely with drilling teams, geologists, and other onsite personnel to ensure smooth communication and alignment with operational objectives. Support decision-making processes by providing accurate, timely data and insights, contributing to safe, efficient, and cost-effective well delivery while maintaining high standards of quality, safety, and performance throughout all drilling phases.

Possess strong technical and analytical skills in data analysis, real-time monitoring, and formation evaluation, with proficiency in tools such as Excel, Power BI, and geoscience software including Petrel, Techlog, Kingdom, and OpenWorks. Experienced in programming using Python and R for data analysis, automation, and problem-solving in drilling and geological applications. Demonstrate solid project management and leadership abilities, with experience coordinating teams, managing field operations, and ensuring timely project delivery. Skilled in risk assessment and mitigation, with a strong focus on maintaining safety and operational efficiency in high-risk environments. Certified in Well Control Program (Level 2), OPITO BOSIET with HUET & CA-EBS, and Health, Safety & Environment (Oil & Gas UK), ensuring compliance with international safety standards. Hold EXLOG Professional Qualification, reflecting advanced expertise in mudlogging and wellsite operations. Excellent communication and technical reporting skills, with the ability to present complex data clearly to multidisciplinary teams. Strong problem-solving mindset with a focus on innovation, continuous improvement, and operational excellence.

Education Summary

Course	University	Passing Year	Country
Petroleum Geophysics	Faculty of Science - Ainshams University	2018	Egypt

Career Summary

Position	Employer	Country	From	To
Mud Logger	Petroservices GMBH	Egypt	06/2018	10/2021
Data Engineer	DATALOG Oil services	Egypt	01/2022	01/2023
Data Engineer	EXLOG	United Kingdom	01/2023	03/2024
Data Engineer	EXLOG	Republic Of The Congo	04/2024	07/2025
Senior Data Engineer	EXLOG	Angola	08/2025	04/2026
