Geoscience / Geologist

Residential Country : India Nationality : India
Resume Title : Ceo / Geologist Notice Period : 6 Days

EDUCATION

Qualification	Institute / College /university	Year	Country
---------------	---------------------------------	------	---------

CAREER SUMMARY

Position	Employer	Country	From Month/ Year	To Month/ Year
----------	----------	---------	------------------	----------------

ADDITIONAL CERTIFICATE AND TECHNICAL QUALIFICATION

Name Of The Course	Course Date	Valid Upto	Name Of Organisation
--------------------	-------------	------------	----------------------

Current Salary (Monthly In Usd): Not Mention Expected Salary (Monthly In Usd): Not Mention

Additional Skills :

Petroleum Exploration, Development and Production, Geophysical well logging and Reservoir Engineering, Water Resources Assessment, Evaluation, Planning, Management and Development Ecology and Environment, Stabilization of roads using Geosynthetics. Mine Planning, Designs and Environmental Restoration Plans. Traxx work packages, interpretation of logs by TECHLOG, cataloguing data, Petroleum Engineering Data base Management of various Oil Fields.

Additional Information :

KEY QUALIFICATION Traxx work packages, interpretation of logs by TECHLOG, cataloguing data, Petroleum Engineering Data base Management of various Oil Fields like YIBAL,MARMUL,FAHUD etc.Report preparation of Geotechnical orders for Exploratory,

Development & Production wells in varied geological settings for deep oil well involving techniques of Geophysical well logging, Geochemistry and Reservoir Engineering. Quality Control of Production well Documents. Mine Planning, Designs and Environmental Restoration Plans for mining requirement for aggregates for construction of Dam, Tunnels and Providing Geotechnical inputs for Transportation & Infrastructure works, Deeply involved in Ground improvement works related to Foundation Designs, slope stabilization works & works related to Ecology & Environment in the Project Areas of Bhutan. Responsible as Project Officer for Key Liaisoning with various Ministries; •Appraisal & Processing of Technology Commercialization, Project Proposals, Monitoring, Steering of the projects from tendering to fructification to implementation stage. Involved in adaptation of indigenous & imported technologies for Domestic & International Applications. •Responsible as well Site Geologist for policy planning and co-ordination for preparation of Geotechnical orders for Exploratory, Development & Production wells in varied geological settings for deep oil well involving techniques of Geophysical well logging, Geochemistry and Reservoir Engineering. •20 years of National & International experience in carrying out petroleum exploration in ONGC as well site Geologist and groundwater exploration and development as Hydro geologist in the Ministry of Water Resources, Sultanate of Oman. •Petroleum Exploration, Development and Production, Geophysical well logging and Reservoir Engineering, Water Resources Assessment, Evaluation, Planning, Management and Development Ecology and Environment, Stabilization of roads using Geosynthetics. Mine Planning, Designs and Environmental Restoration Plans. •Preparation of consultancy proposals for projects aided by International funding agencies like World Bank, UNDP, AFDB, ADB, EEC, etc. IT SKILLS SET Traxx work packages, interpretation of logs by TECHLOG, cataloguing data, Petroleum Engineering Data base Management of various Oil Fields. STRENGTHS •An effective communicator with excellent interpersonal & relationship building skills •Acquired functional experience and project management skills through various Industrial Experience /Academic Projects. •Team player & go-getter with a flexible & positive attitude. •Proficiency at grasping new technical concepts quickly, utilising the same in a productive manner within the stipulated time.
