

and Decision Analysis conducted by OGCI in Colorado Spring, USA. •Attended Courses on ELANPlus and Geology Office Conducted by M/s Schlumberger•Attended Courses on Geoframe Environment Conducted by M/s Schlumberger. •Attended Courses on PETREL software Conducted by M/s Schlumberger. PAPERS: •Source Rock Evaluation from Wireline Logs- A case Study in Upper Assam Basin” Development of Geological Research NE India, 1998, Gauhati. •“Application of High Resolution Dual Induction Tool for Formation Evaluation of Lower Eocene Reservoirs of Upper Assam Basin: A case study”, SPG, 2000, New Delhi. •“Identification of Commercial Productive Zones by Using Saturation Ratio  $S_w / S_{xo}$  in Lakadong + Therria Reservoirs in Parts of Upper Assam Basin”, Petrotech,2001, New Delhi. HIGHLIGHTS AND ACHIEVEMENTS •Associated with discovery, appraisal and development of the Lower Eocene-Palaeocene Reservoirs. •Associated with delineation of pools leading to additional reserves accretion based on re-interpretation of old log data in conjunction with recent geological and production testing data. •Associated with many other internal development plans of small and marginal fields of the company. KEY COMPETENCIES •23 years of experience in hydrocarbon exploration, development and exploitation. •Extensive exposure to clastic environment •Extensive exposure to Exploration & Development and both open and cased-hole Log Interpretations •Experience in Preparation of Technical Tenders for Contract Logging services, fixing of Technical Specifications, Tender Evaluation and Monitoring of contractors Services. •Experience in PETREL software. •Experience in Petrophysical software HDS, PETRA, PRIZM, IP, ELANPLUS etc •Joint Ventures/Equity Participations/Work Association with Consultants •Self starter and effective team worker
